- INLET/OUTLET connections included for both 16mm and 22mm ID pipe

INLET/OUTLET connections available for 16mm and 20mm ID
Allow 550mm from bottom for proper filter replacement
Dimensions in mm

ST2 Coffee machine waste filter

The ST2 is a filter for industrial coffee machines, specifically designed to treat the waste flow of the backwash before going to the drain. Coffee grounds are strained through an ultra fine mesh sock.

The ST2 is easy to fit and comes with pipe fittings and wall brackets for easy installation. The ultra fine sock filter can be used to strain the grounds.

Coffee filter attachment

ST4 & ST8 Undersink Solid Strainer with coffee filter attachment

The ST4 and ST8 coffee waste filters can be installed under sinks used in cafes to strain coffee grounds and other fine sediment. The under-sink option can take the waste from the sink as well as the coffee machine itself.

With the ST8 floor mounted trap, several filtration methods are available to choose from, including mesh bags, ultra fine mesh socks and stainless steel basket options.

Maintenance is easy. Once a day or when a reduced flow is noticed from the sink, simply open the tank and remove the filtration device, empty and replace.

Model	Length (A)	Height (B)	Inlet/Outlet (C)	Width (D)	Min. Clearance (E)	Strainer Capacity Litres	Filter options
ST2	115	220	16/22	n/a	145	1	Coffee filter
ST2	115	320	16/22	n/a	145	0.6	Coffee filter
ST4	255	352	50	255	250	4	Coffee filter/ metal strainer
ST8	305	405	60	300	350	8	Coffee filter/ metal strainer / mesh bag
